

MIX TRAILERS

Turning Quality Into Concrete

Model CMT-100

- Hydraulic Rotation and Tilt for Mixing and Dumping
- Mixes Concrete While Traveling
- Large Internal Mixing Blades
- Rear Operator Control Panel
- Extends the Traveling Range

Cart-Away Concrete Systems, Inc.

MIX TRAILERS

- 7000 GVWR or 1 cubic yard capacity
- Precision rotating drum
- 13 hp Honda Engine
- Auburn Heavy Duty Gearbox
- Ross hydraulic motor w/crossport relief
- 4 wheel free-backing brakes
- Vari-height adjustable tongue
- Standard 2" ball or optional pintel
- GearSaver Knob for gearbox safety
- Hydraulic surge brakes (electric brake option)
- Load range C ST 205/75 D15 tires 1820# rating
- Empty weight 2,440 lbs
- Dimensions 15'4" L x 5'7" W x 6'10" H
- Tandem 3500 lb. axles
- D.O.T. Approved lights
- Uni-body hydraulic valve
- Tubular A36 structural steel frame
- Plastic Tandemflex fenders

THE Model CMT-100 ADVANTAGE

A Single-Axis Rotating Drum

Is essential for a mixing drum that will not spin itself to destruction. **No other feature is important if the drum does not spin straight!**

Precision Drum Parts

Are fitted with jigs exclusive to Cart-Away that allow our technicians to prepare the drum for welding

GearSaver Knob

This one exclusive feature will save you \$1000 in gearbox replacement due to customer misuse.

Cross-Port Relief Valve

In the Ross hydraulic motor reduces the possibility of breaking a shaft key or destroying a gearbox. These items keep the drum spinning and **a drum full of concrete that is not spinning is a recipe for disaster!**

A Heavy-Duty Gearbox

like the Auburn has larger gears and spindles that increase torque capacity, give greater torsional loads and produce a longer life than those in lesser gearboxes.

Uni-Body Hydraulic Valves

Are more efficient, give longer service life and are completely rebuildable.

Tandemflex Fenders

Tough, thermal polyolefin plastic fenders like those used in motorcycles and ATVs.

A piece of rotating equipment that is not round tries to tear itself apart with every revolution. Cart-Away takes great pains to ensure its drums are round. This makes for the longest life equipment in the industry.
